

NEW:

Schlegel Workblade

45°

The S H A P E :

- Maximum fun
at every level freestyle, creeking and rodeo
- Latest asymmetric freestyle blade design
 - Built for powerful strokes
 - Playful handling on waves and holes
 - Super responsive in rocky creeks and on big water

The C O N S T R U C T I O N of the future:

The Nylon-20 Box-Construction saves weight and increases stiffness

- Shock resistant: Nylon-20 gives the best technical results
- Abrasion-resistant: No chipping like some more expansive fiberglass paddles
- Homogeneous: No aluminium edge to break away, because Nylon-20 does not need one

length: 196, 198,
200, 202,
204 cm

feather: 45°

weight: 1250 g

Extra strong F I B E R G L A S S S H A F T

medium flexibility, perfectly balanced for the blades

- Perfect flex
- Warm: Fiberglass keeps your hands warm
- Enhanced grip: 2 ovalised grip sections for maximum paddle control
- Very strong

Blade T R A N S V E R S E S E C T I O N

- Box-Construction: The gas bubble in the centre of the blade reduces the weight by 20%, while the box-construction increases the stiffness of the blade.

Kayakers as well as canoeists need a paddle that is well balanced, dependable and has a good pull in the water. A paddle has to feel good and look great. Many subtle but important improvements have led to Schlegel equipment that meets the demands of today's paddlers.
